## 2012

# OUT & ABOUT, GREAT IMAGES

## FOREST & WILDLIFE

Enjoying your digital camera is all about capturing the right image at the right time, then sharing with your family friends and colleagues.. And often making a great souvenir of a happy or important time. Our courses will help you take the shots, edit the images, keep them safe and relive those graphic memories.

## SECRET CITY LIGHTS

Autumn & winter nights give you great opportunities for photography, whether is feeling the excitement of the city streets or the reflections in the harbour areas, you can capture great memories of striking city.

# ENJOY THE DIGITAL CAMERA

## WATER & REFLECTIONS

Holidays in the forest, by the river or with sand and sea all pose their own special photographic challenges.

Use the light to best effect, get out with your camera early and late. We help you manage the light, the timing and the viewpoint to get the best results.

## CLOSE & INTIMATE

Summer & winter alike there are always attractive, interesting and striking images for all ages, colourful events and the celebrations of life to be enjoyed..and captured on your camera.

## Choose the right course for you

Courses are designed to suit starters, enthusiasts interested in developing their skills and keen photographers looking for new challenges and the opportunity to perfect their imaging skills. Photowye-dean provides mini-courses, 3 hours or half days, one day courses, 10 week evening courses and weekend breaks.

## Forest of Dean & Wye Valley

Enjoy the secret places of the Forest of Dean & the Wye Valley and build a new set of skills with your camera. Compose your images, understand the technology and capture memorable images of some of Britain's finest landscapes. [Symonds Yat](#), [Brockweir](#), and [Mallards Pike](#).

## Cannop Valley & Symonds Yat, Summer

Some of our courses ask you to get up early... but believe me it is worth it to capture the mist of early morning, around the ancient hammer ponds of Cannop, in the Forest of Dean and the river cliffs of the Wye at Symonds Yat. Our courses are designed for all skill levels with a choice of dates to suit your holiday plans.

[Mini-courses, half-days & weekends](#)

## Fabulous Forest Spring & Autumn

Whether it is great tree outlines in winter, the subtle pastel hints of spring, or the intense colours of summer and autumn, the Forest of Dean always provides a great photographic experience. with curious and dramatic close-ups as well as vistas of shape and colour. [Half Day \(4hrs\) May 27th, June 24th](#)

## **Bristol cityscapes**

Bristol's dramatic cityscapes and waterfronts always create great opportunities for photographers. Explore Brunel's dramatic Clifton Suspension Bridge, the Camera Obscura & Clifton adding a new set of camera and composition skills as you go and you can go on to enjoy the city lights and bright reflections. **Summer, autumn & winter Half day (4hrs)**

## **Severn Bridge & Aust March**

The Old Severn Bridge is one of the world's great engineering achievements, built on a dramatic red rock cliff Jurassic fossils and white mineral veins. This excursion explores the very large, the very small, the old and the new, with some atmospheric ruins included, followed by lunch and a debrief in the Boars Head at Aust.

**Half Day (4hrs) March 18th April 15th**

## **City lights photo tour: Harbour side, Bristol**

Bristol's Millennium Square is the starting point for this magical mystery photo tour of the city lights. Your guide will help you create sparkling nightscapes, capture brilliant reflections, find those secret views and record colourful images of a vibrant city from a new and very attractive set of view points.

**14th October, 11th November**

## **Victorian Clevedon, Spring**

The morning visit to Clevedon Pier, one of Britain's 19th Century treasures, starts with breakfast on the sea front, and a walk along the beach and the pier. This gives many opportunities to build composition skills, with views across the estuary and ends with a visit to the cliffs to find sea birds and rugged rockscapes.

**Half Day (4hrs) March 25th, April 22nd**

## Evening Courses: Digital Cameras 2012

### **Great Images Wednesdays 7-9pm January, February, March 2012**

This course is designed to extend photographic skills and introduces image editing packages such as Photoshop. It includes three excursions and practical use of both digital and compact cameras. The course takes digital camera users on from snapping to good composition with a series of practical sessions; flowers & still life, portraits & landscapes, including workshops with models and lights.

## Evening Courses Photoshop 2012

### **Step up to Photoshop Thursdays 7-9pm January, February, March 2012**

This 10 week course is designed for photographers who wish to use Adobe Photoshop Elements. The course is entirely practical, designed for Photoshop Elements and CS users. It also includes practical location photography to extend photographic skills and provide images for editing.

### **Exploring Photoshop CS4**

A course run in conjunction with Winterbourne Academy introduces students to the latest version of Adobe's professional image editing software CS4. The course is run in a fully equipped high standard computer class environment and course members can explore the full potential of a world standard imaging and editing suite.

## Our Workshops

**Discover the full potential of your camera.** Our short practical workshops help you understand your camera and capture the images you want. This may mean exploring all the settings, understanding lighting, using flash to best effect and working on specific projects such as landscapes and flowers, portraits or action. The workshops concentrate on practical use of your camera to help you overcome common problems. AND... it's all about working with and enjoying all the images you can create with your camera.

**Photo restoration.** In 2012 we are introducing a short course on photo restoration, covering scanning and the image editing and repair techniques which can make Aunt Min young again and show how the family really looked 75 years ago.
